OF DEMPSEY MATCH

Declares Cochran Holds Bona Fide Contract With French Boxer.

READY TO SHOW

Strangler Lewis Disciplined for Breaking Engagement to Wrestle.

By CHARLES F. MATHISON.

With ten promoters in remote parts of the world cabling offers of huge sums for a Dempsey-Carpentier bout, and two of them claiming to have secured the pugillatic prize, the roped square match that stands out in bold relief is that Charles B. Cochran, the London pronoter, is the only one who can produce contract signed by Carpentier and his nanager, Descamps. This has been ad-nitted by the French boxer.

The latest incident is the declaration William Fox of this city that Carntier has cabled an acceptance of his ffer, and that a representative of Mr. ow is on the way to Paris to get he French champion's signature. This announcement has brought from William A. Brady, who is the representa-

tive of Cochran, a sharp depial of the claim put forth in behalf of Fox. Brady writes as follows: I observe that Mr. Fox makes the

statement that the contract between Mr. Cochran and Mr. Carpentier becomes null and void on February 15. To-day you will hold a hearing on the Walker bill, which would legalize public professional boxing exhibitions. The salient features of the bill provide for fifteen rounds to a decision by a referee, with the assistance of two judges—a salaried commission of three men—and a licensing committee. Without question the most important feature of the bill does not show in the wording thereof. It is essential that you realize that the Walker neasure has the backing of the Army, Navy and Civilian Board of Boxing Control and its allied organization, the International Sporting Club. It is desirable and necessary that you appreciate that the board and the club are not bodies composed of professional promoters and managers, whose main interest in boxing is financial. The board and its allied organization ere composed of some of the best known sportsmen in the country-leaders in all walks of life-financiers, generals, admirals, college presidents, lawyersamateurs in the true sense of that word, inasmuch as they are lovers of box-

ng and not professional paresites of the sport. These men ask that you approve the bill as it is, and particularly that you approve the feature which provides for a licensing committee. If the of the century assuredly has reached an Boxing Board is permitted to have an advisory word in the appointment of acute stage. In all the confusion of the licensing committee it is ready to assume responsibility with the commisclaims and counter claims, the one fact sion for the conduct of the sport. This, as we take it, would preclude the revival of scandals which killed boxing in the Horton and Frawley law days.

The Walker bill marits your approval for divers reasons. In the first place it is essential that boxing return as a legalized sport. Aside from the worth of the sport as a builder of the body and the faculties the fact remains that there is in he men a certain virile enthusiasm which must find an outlet. And boxish provides a splendid medium for giving vent to that enthualasm. Those who protest against boxing too often confound it with prize fighting because they know no better. Prize fighting has gone and never will return. Boxing, as you all know, has become highly specialized enter-

While the bill provides for fifteen rounds all bouts would not be scheduled for that limit. Only contests between leaders and in which titles are involved would be billed for fifteen rounds, and in order that there may be real contest and a fair basis for a decision there should be fifteen rounds. As for decisions, it has been agreed that they are absolutely necessary for the welfare of the sport and those who pay their way in.

We have one suggestion. You might recommend that the bill be passed with a local option rider similar to that on the Sunday baseball law. This would give boxing to communities which want it and would not force it on communities which do not desire to have the professional sport conducted in their midst by a minority of the citizens,

Trading Pot May Soon Begin to Bubble.

Now that the American League war is over, the rules have been changed, he prices raised and other things done, major league baseball is making a clated return to the winter normal. The trade pot is trying hard to boll, out with John McGraw in Cuba, for one thing, there is no real action. The fact that there are so few high class players and that clubs are looking to buy men and not to trade them is another factor which is making this winter the rankest of rank failures in trading history,

Yesterday's little morsel at which baseball writers were eager to grab was a note to the effect that Dutch Ruether, the Cincinnati pitcher, was to be traded to the Giants for Zimmerman and another pitcher or an outfielder. The Giants could use Ruether, but they already have two first class lefthanders. As for Zimmerman, he could not displace anybody now in the Reds' infield. He might be held in reserve, particularly as first aid to Jake Daubert's bad legs. In a utility role Zimmerman might prove a valuable player for Pat Moran. With Schreiber, Jimmy Smith and Sherry Magee gone the Reds need an experienced main to jump into a possible breach. However, we do not think that the trade will be made unless McGraw has some other deal for an infielder in which he could use Ruether. John is a great hand at that sort of thing,

With Ruether to bolster up its depleted pitching forces Boston might persuaded to give up Maranville. Maranville's release to the Giants, we are informed, would be followed by the resignation of Stallings as manager Perhaps that is what G. W. Grant and his associates are angling for.

Elder Zbyszko, New Here, Wrestled the Great Gama.

The arrival of Stanislaus Zbyszko brought to these shores a wrestler who, rom experience, knows of the prowess of the Great Gama, the Hindu whose praises were sung in this column by an English correspondent some days ago. It developed yesterday that some ten years ago, when the elder Zbyszko and Gama were at their best, they met on the mat in London. with C. B. Cochran.

From now on, as representative of hours and fifteen minutes they struggled and neither was able to gain a fall.

The referee finally called the bout a draw. Only a short time before that home a big field in the 300 yard dash. R. moters who are making statements not Clama met Dr. B. F. Roller in London and the American was forced to retire

with two broken ribs after about twenty minutes of tussling. While it is conceded that the Great Gama was a great wrestler about a decade ago, and that he still may be a remarkable performer, it is doubted whether he would make a worthy match for either Stecher or Lewis. George Sandow, who manages Lewis, said that there was talk of bringing Gama to this country twenty years ago. The Hindu must be close to the fifty year mark-far past the age of champions in any virile sport. So it looks as if Stecher, after all, is the undisputed champion of the world.

The question of age develops the fact that Stanislaus Zbyszko himself not exactly a youngster. He is perhaps 42. Stanislaus is not likely to wait long for a match as Lewis stands ready to take him on.

Fordham on Georgetown Football Schedule,

In the Georgetown football schedule for next fall we note that October 23 is filled by Fordham. Whether this means that Fordham is coming back o the gridiron remains to be seen, for on the subject of football Fordham has been mum these many months. Frank Gargan's engagement by New York University to coach the eleven does not make the Fordham outlook promising. How about official word on the matter?

A new Elegance of Line Seen in this Chalmers

T'S a car very easy to look at; and there's a wealth of comfort in those new type seat cushions of this Chalmers. Besides, this new elegance has in no way penalized roominess. At the radiator the lines are high. At the rear they are low.

From the cowl back the top line of the coach is low, but as you sit in the car you have a feeling this line is high. Once in motion this position becomes even more alluring as

you cling to the seat, note the absence of sidesway, and feel that the car is hugging the road closely. Particularly is your enthusiasm stirred when you observe the

ease of the engine's effort, its intense silence, the quick response when you turn loose the power stream. You tacitly pay a compliment to Hot Spot and Ram's horn, for they have Fletcherized the raw gas, utilized the last drop of

power that nature stored away.

And you admire a Chalmers the more for it, for in addition to its beauty of action, it is arrayed in new garments that are refreshing to a degree.
